

Down to Earth Biology

We are searching for an intermediate environmental specialist or biologist to join our team of experienced environmental professionals in Grande Prairie, starting in June 15th, 2018. The person selected for the position will assist in the implementation of baseline aquatic and terrestrial studies, wildlife and fisheries inventory, water quality monitoring, environmental impact assessments and environmental monitoring. Responsibilities will involve several aspects of project execution, including assisting with study design, field work, data management and analysis, quality control, and technical reporting. This role will have a balance between field work and office related duties, travel is required

Requirements:

Our ideal candidate has specialized expertise that would complement our Aquatics or Terrestrial Ecology groups, in one or more of the following disciplines:

- Fisheries Experience
- Watercourse crossing assessments
- Wildlife surveys and habitat assessments
- Migratory breeding bird Surveys
- Wetland Classification and Function
- Plant Identification
- Soil Classification for land capability and pre-, post-disturbance assessment; and,
- Environmental construction monitoring

Successful candidates will have a strong aptitude to working in a team environment and coordinating with other disciplines. Excellent written and interpersonal communications skills are required. The candidates will have the following combination of education and experience:

- Bachelor's Degree or Diploma in a related discipline and 5 years related experience, Master's of Science and 4 years related experience, or an equivalent combination of education and experience
- Experience managing projects, leading field programs and supervising junior staff
- Working understanding of Oil and Gas Industry
- Eligible for professional accreditation such as P.Ag., P.Biol., R.P.Bio.
- Class 5 drivers license; and,
- Strong work ethic and positive attitude

EDI is currently in our 24th year of business. We operate on the core principles of quality and innovation, open communication, mutual respect, and safe work environment. If you are ready for new challenges and a rewarding career experience, please email your resume in confidence by May 30th, 2018 to: employment@edynamics.com with GP0530 in the subject line.

Applicants will be considered as their resumes are received and may be requested for an interview prior to the closing date. Only candidates requested for personal interviews will be contacted. Should an individual with the required qualifications not be available, applicants with closely related qualifications may be considered. As a result, the position may be reclassified and offered without reposting.
