Down to Earth Biology

EDI is an employee owned company that has been in business for 24 years with offices across western and northern Canada. EDI provides science-based environmental consulting services and products to all major industrial sectors, First Nations, and government. EDI is looking for Senior Aquatic Biologists for our Burnaby, Calgary and Whitehorse offices. Why is EDI right for you?

- EDI's core focus is Aquatic and Terrestrial biology.
- We believe that one of our greatest successes is our unique company structure, one which has fostered a terrific team environment and a very high level of employee retention.
- We operate on the core principles of quality and innovation, open communication, mutual respect, and safe work environment.
- EDI is committed to the long-term development of our people, we provide a professional development budget and support people to pursue projects that are of interest to them.
- We offer competitive compensation including benefits, a profit share program and share investment offerings.

As a member of our team, you will be responsible for project management, business development, field data collection, report writing and review, and communication with clients. Our ideal candidate has in-depth experience in aquatic biology in western Canada, with strengths in fisheries science, habitat compensation, impact assessment and the regulatory environment.

Requirements:

- A minimum of 10 years' experience related to aquatic biology (6 to 10 years' experience may be considered for intermediate positions).
- A thorough understanding of project management, including extensive experience developing project scope of work, cost estimates and client management.
- A proven record of professional report writing and senior editorial and technical review.
- In-depth understanding of applicable regulatory requirements and experience liaising with applicable government agencies.
- Strong organizational and interpersonal skills and have exceptional time management skills.
- The ability to work in a dynamic environment with limited supervision.
- Provide mentorship and direction to junior and intermediate staff.
- Work well in a team oriented environment.
- Be comfortable with field work in remote locations and/or travel between offices.
- Minimum B.Sc. degree. Registration as R.P.Bio or P.Biol. is required.

If you are ready for new challenges and a rewarding career experience, please email your resume in confidence by **March 15, 2018** to: employment@edynamics.com with the appropriate posting code in the subject line: BN0215 – Burnaby; CCG0215 – Calgary; YT0215 – Whitehorse.

Applicants will be considered as their resumes are received and may be requested for an interview prior to the closing date. Only candidates requested for personal interviews will be contacted. Should an individual with the required qualifications not be available, applicants with closely related qualifications may be considered. As a result, the position may be reclassified and offered without reposting.
