

Senior Biologist/Project Manager

Prince George, BC

Down to Earth Biology

EDI is an employee owned company that has been in business for 24 years with offices across western and northern Canada. EDI provides science-based environmental consulting services and products to all major industrial sectors, First Nations, and government. EDI is looking for a Senior Biologist/Project Manager for our Prince George office. Why is EDI right for you?

- EDI's core focus is Aquatic and Terrestrial biology.
- We believe that one of our greatest successes is our terrific team environment and a very high level of employee retention.
- We operate on the core principles of quality and innovation, open communication, mutual respect, and safe work environment.
- EDI is committed to the long-term development of our people through provision of a professional development budget and support to pursue projects that are of interest to them.
- We offer competitive compensation including, benefits, a profit share program, and share investment offerings.

Our biologists are responsible for a diverse array of projects, working with their science-based team and developing client targeted business opportunities. If you have a Biology background, preferably in fisheries, experience with environmental impact assessments, project management, supervision and mentorship with a proven track record of delivering effective results, you could be the person we are looking for.

Requirements:

- Environmental consulting experience that includes in-depth understanding of applicable regulatory requirements, application processes and experience liaising with applicable government agencies.
- Experience in environmental impact assessments, environmental field surveys and project design.
- Experience with environmental construction monitoring (mining or other), an understanding of key provincial legislation regulating industrial projects, and best management practices and mitigation measures.
- A sound understanding of project management, including extensive experience developing project scope of work, cost estimates, client relations, and business development.
- A proven record of professional report writing and senior editorial and technical review.
- Strong organization and interpersonal skills with exceptional time management skills.
- The ability to work in a dynamic environment with limited supervision.

Minimum B.Sc. degree, and registration or eligibility for registration in a professional association. If you are ready for new challenges and a regarding career experience, please email your resume in confidence by July 23, 2018 to: employment@edynamics.com with PG0723 in the subject line.

Applicants will be considered as their resumes are received and may be requested for an interview prior to the closing date. Only candidates requested for personal interviews will be contacted. Should an individual with the required qualifications not be available, applicants with closely related qualifications may be considered. As a result, the position may be reclassified and offered without reposting.
