

Down to Earth Biology

Since we started EDI 26 years ago, our people have defined our culture and have been instrumental in our success. As we continue to grow, we look for team members who want to grow their careers and make a difference by working with our senior leaders. Our culture focuses on quality, support, mentoring, teamwork, positive attitudes, and flexibility to “do it right” for our clients. We promote innovation at all levels. Our members are self-motivated, enthusiastic for continual improvement and strong communicators. Through relationships built among team members, we realize that EDI is not just a company, it is *our* company.

Our benefits include:

- A challenging, dynamic, engaging and rewarding career experience
- Competitive wages
- Working with a team of established market sector consultants who excel in their fields of science, environmental assessment and regulatory planning

About this opportunity:

This is a term opportunity for the position of Environmental Monitor, supporting our EDI team and our Indigenous partnerships on various projects throughout western Canada. It is a primarily field-based position, likely to include rotational shift work at various locations in central and northern BC. In this position, you will be responsible for implementing various Environmental Management Plans to ensure compliance with permit conditions and project commitments. This will be achieved through conducting onsite environmental inspections/audits, monitoring work activities in relation to environmental protection, documenting the effectiveness of environmental protection measures and providing corrective measure recommendations. You will be responsible for data collection, data management and preparing technical summary reports outlining your findings, as well as communicating with clients, regulators, and contractors. Depending on the position and your qualifications, you may also provide support for other environmental management programs onsite including sediment and erosion control, water quality monitoring, fish or amphibian salvage, pre-clearing bird- or wildlife surveys, and reclamation activities.

We are looking for someone with:

- Experience supporting responsible project development through the balance of environmental protection, safety, and project requirements
- Experience in mining, oil and gas, power, renewable energy, and/or infrastructure projects
- Understanding of applicable environmental legislation, regulations, and policies to ensure project-specific compliance
- Experience in environmental monitoring and implementation of best management practices and mitigation measures
- Strong organizational and time management skills
- Strong communication skills both verbally and in writing, with clients, contractors, agencies, and co-workers, including past experience with technical writing
- Self-motivated and responsive, yet calm demeanor in a fast-paced environment, with strong problem-solving abilities
- Physically fit and able to work long days (10-12 hours) in the field in all weather conditions

Environmental Monitor – Term Position

Prince George or Smithers, BC

Down to Earth Biology

- Experience operating all-terrain vehicles (ATVs) and/or utility terrain vehicles (UTVs)
- Willingness to travel for field work in remote locations and/or between offices

Initial resume screening will only consider applicants that meet the following job requirements:

- A minimum of 3 years environmental consulting experience
- Diploma or B.Sc. Degree in Renewable Resources or Natural Sciences or related discipline(s)
- Class 5 Drivers Licence

Additionally, demonstrated experience in at least one of the following qualifications will be required:

- Construction site erosion and sediment control
- Water quality monitoring
- Pre-clearing surveys for birds and wildlife

Application deadline: September 24, 2021

At EDI, we are committed to providing an environment of mutual respect where equal employment opportunities are available to all applicants and teammates. EDI believes that diversity and inclusion among our teammates is critical to our success as a growing environmental company, and we seek to recruit, develop and retain talented people from a diverse candidate pool.

*If you are ready for new challenges and a rewarding career experience, please email your resume and cover letter in confidence: employment@edynamics.com with **EDI2021-026** in the subject line. Only candidates requested for personal interviews will be contacted.*
