

Intermediate Fish Biologist

Permanent, Full-Time Position

Whitehorse, YT (other locations considered)

Down to Earth Biology

Since we started EDI 26 years ago, our people have defined our culture and have been instrumental in our success. As we continue to grow, we look for team members who want to grow their careers and make a difference by working with our senior leaders. Our culture focuses on quality, support, mentoring, teamwork, positive attitudes, and flexibility to “do it right” for our clients. We promote innovation at all levels. Our members are self-motivated, enthusiastic for continual improvement and strong communicators. Through relationships built among team members, we realize that EDI is not just a company, it is our company.

Why is EDI right for you?

- EDI’s core focus is aquatic and terrestrial biology and we work on innovative and exciting projects.
- We believe that one of our greatest successes is our unique company structure, where individuals can make a difference by helping people and the environment.

We are looking for a driven individual who is ready to take their career to the next level and grow with us. The successful candidate will be responsible for:

- Planning and completing fieldwork related to fish and fish habitat
- Analyzing and interpreting data and preparing technical reports, memos and other project deliverables
- Assisting with the preparation of project budgets and proposals
- Preparing and supporting our clients with project assessment (Yukon Environmental and Socio-economic Assessment Act - YESAA) and permitting (*Fisheries Act*) of their projects
- Data analysis and reporting
- Working effectively in a team environment to meet goals of the project productively and safely

Requirements:

- A passion for your career
- B.Sc. degree in biology or related discipline(s)
- A minimum 5 years of experience in a fish biology related discipline
- Proven record of crew leading experience related to aquatic biology and comfortable working in remote locations
- Strong organizational, interpersonal and time management skills
- Knowledge and experience working with effects assessment (e.g. YESAA) and permitting (*Fisheries Act*) considered an asset
- A proven record of professional report writing and data analysis
- Registration or eligibility for registration as a R.P.Bio. or as P.Biol. considered an asset

At EDI, we are committed to providing an environment of mutual respect where equal employment opportunities are available to all applicants and teammates. EDI believes that diversity and inclusion among our teammates is critical to our success as a growing environmental company, and we seek to recruit, develop and retain talented people from a diverse candidate pool.

*If you are ready for new challenges and a rewarding career experience, please email your resume and cover letter in confidence: employment@edynamics.com with **EDI2021-031** in the subject line. Only candidates requested for personal interviews will be contacted*
