

# Intermediate Wildlife Biologist Permanent Full-time Position

Prince George or Smithers, BC

## Down to Earth Biology

Since we started EDI 27 years ago, our people have defined our culture and have been instrumental in our success. As we continue to grow, we look for team members who want to grow their careers and make a difference by working with our senior leaders. Our culture focuses on quality, support, mentoring, teamwork, positive attitudes and flexibility to “do it right” for our clients. We promote innovation at all levels. Our members are self-motivated, enthusiastic for continual improvement and strong communicators. Through relationships built among team members, we realize that EDI is not just a company, it is *our* company.

### Our benefits include:

- Competitive compensation, including health benefits, profit-sharing and employee share ownership programs
- A commitment to long-term development through opportunities and support for professional advancement (e.g., internal mentorship, annual professional development budget)
- Working with a team of established industry leaders who excel in the fields of aquatic and terrestrial biology
- A challenging, dynamic, engaging and rewarding work experience

This is a permanent full-time opportunity for the position of Intermediate Wildlife Biologist working on a major construction project in Northern BC. As a member of our team, you will be responsible for field data collection, safety reporting and communication with clients and partners. Our ideal candidate has in-depth experience in wildlife biology in Canada, with strengths in amphibian salvage and bird nest surveys.

### The successful candidate will be responsible for the following:

- Participating proactively in EDI’s health and safety program
- Leading a field team, including sub-consultants, through project execution
- Managing and meeting client expectations while mitigating project risk
- Collecting accurate field data and entering data in electronic forms
- Mentoring, training and providing technical guidance to the team

### We are looking for someone with:

- Knowledge of amphibian, bird and wildlife species in western Canada
- Documented amphibian salvage experience or bird survey experience
- Experience working in the oil & gas industry
- A working knowledge of provincial/territorial and federal regulatory requirements and processes
- Strong interpersonal, organizational, analytical and time management skills
- The ability to work well independently and in a team-oriented environment
