Permanent Full-time Position

Whitehorse, YT

Down to Earth Biology

Since we started EDI 28 years ago, our people have defined our culture and have been instrumental in our success. As we continue to grow, we look for team members who want to grow their careers and make a difference by helping people and the environment. Our culture focuses on teamwork, a positive attitude, and adaptability to dynamic situations. We promote innovation at all levels. Our members are self-motivated, enthusiastic for continual improvement and effective communicators. Through relationships built among team members, we realize that EDI is not just a company, it is *our* company.

Why is EDI right for you?

- EDI's core focus is aquatic and terrestrial biology and we work many and exciting projects,
- We believe that one of our greatest successes is our unique company structure, where individuals can make a difference by helping people and the environment.
- EDI has a clearly defined succession plan to ensure to allow EDI to sustainable in the long term.

We are looking for a driven individual who is ready to take their career to the next level and grow with us. The successful candidate will be responsible for:

- Planning and completing fieldwork related to fish and fish habitat and/or stock assessment (via sonar)
- Analyzing and interpreting data and preparing technical reports, memos and other project deliverables
- Assisting with the preparation of project budgets and proposals
- Preparing and supporting our clients with project assessment (YESAA) and permitting (Fisheries Act) of their projects
- Working effectively in a team environment to meet goals of the project productively and safely

Job requirements includes:

- A passion for your career
- B.Sc. degree in biology or related discipline(s)
- A minimum of 3 years of experience in fish biology-related discipline
- Proven record of crew lead experience related to aquatic biology and comfortable working in remote locations
- Strong organizational, interpersonal and time management skills
- Knowledge and experience working with effects assessment (e.g. YESAA) and permitting (*Fisheries Act*) considered an asset
- A proven record of professional report writing and data analysis
- Registration or eligibility for registration as a R.P. Bio or as P. Biol. considered an asset

Application deadline – February 20, 2023

At EDI, we are committed to providing an environment of mutual respect where equal employment opportunities are available to all applicants and teammates. EDI believes that diversity and inclusion among our teammates is critical to our success as a growing environmental company, and we seek to recruit, develop and retain talented people from a diverse candidate pool.

*If you are ready for new challenges and a rewarding career experience, please email your resume and cover letter in confidence: employment@edynamics.com with **EDI2023-066 in the subject line**. Only candidates requested for personal interviews will be contacted.*
